Key Features

Allows for cavities between 125mm & 150mm

- ✓ One solution covering a wide cavity range.
- ✓ Supports Government Net-Zero targets.
- ✓ Fire Safety – deeper cavities allow for the use of non-combustible insulation.

Allows for vertical movement as the timber gable shrinks

- ✓ Up to 6mm differential movement.
- ✓ Reduction in rework costs due to cracks in the blockwork.
- ✓ Regulations and standards adherence.

Supports Cullen's timber gable end restraint system

- ✓ System and specified products have been tested to NHBC standards.

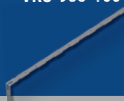

Cullen's Gable Restraint System
